

# ALTO 3

ALTO is an all-in-one Business Continuity and Disaster Recovery (BCDR) product line purpose-built to efficiently prevent data loss and minimize downtime for their customers.

## All-in-One Business Continuity

Built to ensure their customer's business is always on and resilient to disasters, ALTO is an all-in-one solution that includes verified backups, restore options for any scenario, instant virtualization, and ransomware protection. ALTO is backed by Datto's private cloud so failover and recovery can be performed from the cloud with no additional configuration. Streamlined business continuity solutions save time, money, and headaches.

## Raising The Bar For Reliability

Extensive restore times from file backups, backup failures and inability to restore data for customers are major pain points. Datto eliminates those concerns by designing and delivering better backup and restore options.

Reliability begins with knowing your backup is always good. Datto eliminates the need to worry if the system will boot or be recoverable by automatically verifying backups will boot with all data intact and no ransomware, giving you 100% confidence in your backups and ability to restore. Keep data in the Datto Cloud indefinitely with Infinite Cloud Retention and perform all restore tasks directly from the Datto Cloud. With backup you can count on and the ability to failover and restore from anywhere, you can rest easy.

## Maximizing Uptime

Going beyond simply recovering data, business continuity saves businesses by keeping them online in the face of otherwise devastating issues such as ransomware, malware, natural disasters, network downtime and costly human errors. Datto's breadth of restore tools are fit for any job and designed to get you back to production faster by taking out the guesswork. Backups are stored in the Datto Cloud so that any snapshot can be used to restore or virtualize. Restore options range from granular restores which can target specific files to full system restores which include instant virtualization to keep you online. With the ability to immediately get back up and running from the Datto Cloud, you have an edge when local competitors lack the ability to bounce back as quickly.

### Hardware

<b>Storage</b>	2TB
<b>RAID</b>	-
<b>OS Drive</b>	-
<b>RAM</b>	8GB (DDR4)
<b>CPU</b>	Intel Celeron 3865U
<b>Network</b>	1 x 1GbE
<b>Chassis</b>	Mini Desktop
